

Think about impacting 1 out of every 2 people online in innovative and imaginative ways that are uniquely Yahoo!. We do just that each and every day, and you could too. After all, it's big thinkers like you who will create the next generation of Internet experiences for consumers and advertisers across the globe. Now is the time to show the world what you've got. Put your ideas to work for over half a billion people.

Yahoo! Labs is pioneering the new sciences underlying the Web. As the center of scientific excellence for Yahoo!, Yahoo! Labs delivers both fundamental and applied scientific leadership through published research and new technologies powering the company's products.

Barcelona Media Innovation Centre has several openings in Barcelona. Selected candidates will work in partnership with Yahoo! Research in the area of Social Media (social network analysis, large-scale data mining, complex networks, HCI and engagement, media analysis, psychology, data-driven design, human-centered computing). Social scientists with strong technical skills are encouraged to apply, and candidates in technical fields (CS, EE, Physics, etc.) with a strong interdisciplinary background will be given special consideration.

- Research Scientists
- Research Engineers (front-end and back-end)
- Post-doctoral researchers
- Technical project managers (Ph.D. required as position balances research and technical management in EU-style projects)
- Interns

Scientists at Barcelona Media Innovation Centre that work in partnership with Yahoo! Research, focus on data-driven analysis, high-quality search, algorithms and economic models. Yahoo! manages many of the largest and richest data repositories in the world, and researchers at Barcelona Media Innovation Centre working in partnership with Yahoo! Research mine insights from these giant collections, individually and collectively, maintaining users' privacy while setting new standards for user value.

Yahoo! Research believes in an open culture of collaboration with peers from academic and research institutions and provides an academic setting with a focus on simultaneously publishing scientific work of the highest standard while driving a research agenda to achieve significant impact on Yahoo!. Barcelona Media Innovation Centre follows the Yahoo! tradition of a great work environment with first-rate benefits and amenities, the freedom to exercise creativity in pursuit of a goal, and a fun, focused setting with world-class colleagues.

Barcelona Media Innovation Centre -Yahoo! Research actively participates in several European projects.
